

401 Metals Plan

Why a 401 Metals Plan?

If you are concerned about what the future holds, and want to protect what you have earned then Patriot Trading Group's 401 Metals Plan is a great place to start.

Wealth preservation is the central theme of our 401 Metals Plan. Markets and economies cycle and the prudent investor must ensure his or her wealth is being protected. Gold's asset preservation qualities have been proven throughout history, and a gold diversification plan makes a great deal of sense in these trying and uncertain times.

How does the plan work?

The Plan allows you to make monthly contributions to your 401 Metals and at the end of every quarter your account will be totaled and placed into hard assets at current market value. Your hard assets will be mailed directly to you. Any monies that are left unused will rollover into next quarters purchases. Along with your assets you will receive an investment statement that recaps your purchases for the quarter, and the amount of available funds that will roll into the next quarter.

Products will be individually selected, by our team of industry experts, to help you maintain a well balanced portfolio that will allow you to capitalize on market conditions.

How do I fund my 401 Metals Plan?

All 401 Metals Plans will be funded by either a debit or credit card (we accept Visa, Master Card, American Express and Discover Card) that you will provide upon signing up for the plan. Your card will be charged the same amount each and every month on the date of your choosing. The plan will allow for weekly, bi-monthly, and monthly charges. The 401 Metals Plan will require a minimum investment of \$200 per month with a maximum investment of \$10,000 per month.

Are there any fees associated with my 401 Metals Plan?

The Patriot Trading Group does not charge any fees for our 401 Metals Plan investors. The only charges outside of the cost of your hard assets is a \$15 dollar shipping charge that will be deducted from your account when quarterly shipping of your assets is conducted.
